ALPHABETICAL LISTING OF SERVICE	59
---------------------------------------	----

INTRODUCTION

The Riverside County Board of Supervisors took action in March 2015 to consolidate and modernize the delivery of publicly funded healthcare by forming Riverside University Health System (RUHS). With a mission to improve the health and well-being of individuals and communities, RUHS is dedicated to exceptional and compassionate care, education and research through an integrated delivery network. With this action, the Riverside County Department of Mental Health joined RUHS and became Riverside University Health System — Behavioral Health. There are no changes in the service delivery, availability, locations or staffing of existing programs as a result of this action.

The Riverside University Health System (RUHS) — Behavioral Health is committed to providing prompt, effective, efficient, and culturally competent community based services that enable people living with a mental illness. Severely mentally disabled adults, older adults, children at risk of mental disability, transition age youth, substance users, and individuals on conservatorship maintain their optimal level of personal and social functioning. Services are provided countywide and the department serves adults, older adults, children, and transition-age youth who are affected by or at-risk for mental illness or substance use.

RUHS has developed an exceptional reputation for providing services that involve the latest innovations in clinical practices affecting mental health. A high rate of client satisfaction has added to this reputation. We have a dedicated professional team of approximately 1,000 employees consisting of Psychiatrists, Clinicians, Peer Specialists, and paraprofessionals who serve over 45,000 consumers annually. The combination of innovative services and professional staff is reflected in our high rate of client satisfaction.

RUHS is proud of our commitment to cultural competency and our acceptance and valuing of people from all ethnic, cultural, racial, and linguistic backgrounds. The Department's development and implementation of cultural competency will equip our employees to meet the needs of our diverse population. The confidentiality of all consumers is strictly adhered to in accordance with State and Federal regulations.

Services are primarily targeted toward individuals on Medi-Cal plus those eligible for other specialized State programs. Questions about bills and fees can be addressed to the clinic or to the Patient Accounts Unit at (951) 358-6900.

RUHS is comprised of three major programs: Mental Health Services, Substance Use Services, and the Public Guardian's Office. These programs provide prompt, efficient, professional, culturally competent services throughout the county.

RUHS is administratively divided into three geographic regions: Western metropolitan (Riverside); Mid-County (Hemet, Temecula, Perris, Lake Elsinore, and environs); and Desert (Banning, Palm Springs, Indio, Blythe and environs). These regions have several service locations enabling the programs to provide prompt community-based services to consumers. In addition, there are

specialty services such as crisis, placement, and hospital services that are provided centrally that serve consumers from across the county.

MENTAL HEALTH PROGRAM

This program provides treatment and support services to transition age youth, adults and older adults who have a mental illness and children who are seriously emotionally disturbed. Services include outpatient services, medication, peer recovery services, education, housing, residential care, as well as subacute and acute care. Peer-to-peer support services are a component of the program and are provided in clinics and by contract providers. Services to individuals who are homeless and mentally ill are also provided across the county. A complete list of providers is available at any clinic or by contacting the CARES Line (Community Access, Referral, Evaluation, and Support Line) at (800) 706-7500.

SUBSTANCE USE PROGRAM

This program provides accessible, high quality substance use treatment for all ages through a wide range of countywide clinics and contract providers. Prevention services are provided through 1) the largest Friday Night Live Program in the State, 2) collaborative grants with school districts to set up student assistance programs, and 3) contracts to reach out to community organizations and assist each community to make environmental prevention changes as needed. The County's Drinking Driver and PC 1000 Programs are also under the administration of the Substance Use Program.

PUBLIC GUARDIAN PROGRAM

This program provides conservatorship services, both the Lanterman-Petris-Short Act and Probate, and works closely with the mental health case management program in providing representative payee services to qualified clients of RUHS.

TO ACCESS SERVICES

Please call the clinic closest to you from the list on the following pages. You may also call the CARES Line (Community Access, Referral, Evaluation, and Support) at (800) 706-7500, TTY: (800) 915-5512. This line provides information and referrals for Medi-Cal and Riverside County Health Care (RCHC) Plan beneficiaries seeking Mental Health Services. Se Habla Español. Interpreter services are available at no cost. For hearing impaired services, please call: Western Region TTY# (951) 358-4728, Mid-County Region TTY# (951) 296-0596, Desert Region TTY# (760) 863-8026.

BEHAVIORAL HEALTH ADMINISTRATION

Director's Office - Behavioral Health Administration

The Mental Health Director is an officer appointed by the Board of Supervisors and has primary responsibility for directing the development, operation, administration, and evaluation of all mandated and discretionary mental health programs within local, State, and Federal regulations and policy guidelines. Riverside University Health System (RUHS) — Behavioral Health includes comprehensive mental health, substance use, public guardian services, and contracted services.

4095 County Circle Drive
Riverside, CA 92503
Phone: (951) 358-4500
Fax: (951) 358-4513

Behavioral Health Commission

The Riverside County Behavioral Health Commission (BHC) is an advisory body, composed of volunteers appointed by the Board of Supervisors, who work in conjunction with RUHS — Behavioral Health to ensure citizen and professional input and involvement in all aspects of Department Services. BHC members serve for a three-year term and are governed by the California Welfare and Institution Code §5604 and the Ralph M. Brown Act.

Mental Health Services Act (MHSA) Administration

Proposition 63, the Mental Health Services Act, was enacted by California voters in November 2004 to provide increased funding, personnel and other resources to support county mental health programs and monitor progress toward statewide goals for children (birth to 15 years of age), transition age youth (16 to 25 years of age), adults (26 to 59 years of age), older adults (age 60 and over) and families. The Act addresses a broad continuum of prevention, early intervention and service needs and the necessary infrastructure, technology and training elements that will effectively support this system.

The MHSA Administrative Department manages the planning and implementation activities related to the five main required MHSA components which are Community Services and Supports, Workforce Education and Training, Prevention and Early Intervention, Capital Facilities and Technology, and Innovation.

2085 Rustin Avenue
Riverside, CA 92507
Phone: (951) 955-7122
Fax: (951) 955-7205

MHSA Prevention and Early Intervention (PEI)

The intent of the Prevention and Early Intervention (PEI) programs is to engage individuals before the development of serious mental illness or serious emotional disturbance, or to alleviate the need for additional or extended mental health treatment. These programs are provided in places where mental health services are not traditionally located, such as schools, community centers, and faith-based organizations.

2085 Rustin Avenue
Riverside, CA 92507
Phone: (951) 955-7156
Fax: (951) 955-7207

MHSA Workforce Education and Training (WET)

The primary mission of the Workforce Education and Training program is to develop and provide programs that enhance the recovery-oriented treatment skills of the Public Mental Health service system and to develop recruitment and retention strategies for qualified professionals serving community mental health. Education and training programs are consumer-centered, culturally competent, and driven by the values of wellness, recovery, and resiliency.

Public Guardian Administration

The Public Guardian provides conservatorship investigation and administrative services. The division provides forensic psychiatric support for persons placed under a Welfare and Institution Code conservatorship.

3625 14th Street

Riverside, CA 92501

Phone: (951) 955-1540

Main Fax: (951) 955-1610

Conservatorship - is a court proceeding to appoint a manager for the financial and/or personal care needs of the individual who is either physically or mentally unable to provide for these needs alone. The conservator is held accountable by the Superior Court for the manner in which he/she administers the conservatorship.

Conservatorship Investigation - this is the branch of the Public Guardian's office which determines whether or not a client needs to be placed on conservatorship. The investigators gather information from the client's family, therapist, doctors, and anyone else who may be involved with the client. Based on the information obtained a report is generated with a recommendation for or against conservatorship. The report is then submitted to a judge for the final determination.

LPS/Property Management Administration - the Public Guardian has been designated by the County Board of Supervisors as the County office to serve as conservator under the Lanterman-Petris-Short (LPS) Act for persons gravely disabled as the result of a mental disorder. These individuals may require placement in a state mental institution or other facility for psychiatric treatment. Grave disability is defined as a condition in which a person, as a

result of a mental disorder, is unable to provide for his/her basic personal needs for food, clothing, or shelter.

Probate Administration - operates under the legal requirements of the Probate Code, providing probate conservatorship services to persons who are unable to manage for themselves. This division manages property and/or provides for the personal care needs of the adult disabled and the infirmed.

Representative Payee Program - many clients of RUHS — Behavioral Health find themselves in a position where they are unable to handle their own finances safely. In these cases, the Public Guardian has a program whereby a special person, called a payee, is established to collect the client's Social Security income, then uses the money to pay the client's bills such as rent, utilities, medical expenses, and other expenses of daily living. Clients may also ask the payee for money for personal expenses, such as clothing.

Quality Management Administration

Riverside, CA 92507
Phone: (951) 955-7126
Fax: (951) 955-7204

Quality Improvement (QI) - Inpatient

The Inpatient Quality Improvement Unit provides oversight of Riverside County consumers who are hospitalized. The process includes monitoring utilization, handling complaints, as well as quality improvement issues. The purpose of this program is to review appropriateness of acute mental health care services. Monitoring of all involuntary hospitalizations (W & I §5150) is also included.

9990 County Farm Road, Suite 3
Riverside, CA 92503
Phone: (951) 358-6031
Fax: (951) 358-5038

Quality Improvement (QI) - Outpatient

This program provides clinical oversight of all county clinics, including contract providers. QI provides a mechanism for consumers and family members to file and each resolution on complaints and grievances. The QI works to assure that all county activities maintain high standards while adhering to mandated requirements and regulations.

Consumer Affairs

This program promotes the consumer perspective in all aspects of the Department from policy and planning to direct services. It seeks to further recovery through training and support for consumers employed as Peer Specialists in the Department. These Peer Specialists, having attained a level of personal recovery, assist and support consumers of the Department's services. Through this peer-to-peer support, consumers experience hope and are assisted in their own recovery.

Family Advocate Program (FAP)

This program provides support for family members, significant others, or caregivers of adults with a serious mental illness. The primary function of the Family Advocate Program is to assist family members in coping with the illness of their loved one through information, education, and support. Additionally, they also provide information and assistance to family members in their interaction with service providers and the mental health system. Family Advocate staff are themselves family members and are sensitive to the concerns of other family members.

Parent Support & Training Program

Parent Partners are hired to work in clinics with families and professional staff to assist in the planning and provision of treatment for children and families. This program is countywide and provides support, education, training, and resources to parents and primary caregivers who are raising a child with mental health/behavioral challenges. Some services and supports are available to parents/caregivers whether or not their child is receiving services. They are offered in English and Spanish and are free of charge. Services include, but are not limited to, support and educational groups, trainings relating to mental health, a parent-to-parent telephone support line, social events, mentorship for youth, limited respite, and a parent resource library. Additional services include: community outreach activities, volunteer services, special projects, training to staff, and access to donated goods and services.

SUBSTANCE USE PROGRAMS

Substance Use Administration

This program provides substance use prevention and treatment services and administers the Drinking Driver and PC 1000 Programs. Services are provided in County operated clinics and through our network of contracted providers. Services include detoxification, residential treatment, outpatient services, perinatal services, Narcotics Treatment Program (Methadone), prevention, and referrals to other ancillary services.

Detox Referral Line (24/7): (800) 499-3008

Outpatient Substance Use Services

Outpatient Drug Free (ODF) Program - Adult and adolescent substance use treatment groups, individual counseling, and education in both English and Spanish. Twice a week for 16 weeks.

Co-Occurring Disorder Treatment Program - Groups and individual counseling with an emphasis on both substance use and mental health issues.

Drinking Driver Program (DDP) - Registration, screening, and tracking of convicted DUI referrals from the Courts. Assess out-of-state referrals. Assist clients to remain in DUI programs. Monitor DUI programs and PC 1000 programs (Deferred Entry of Judgment – first time drug offenders).

Drug Court - Recovery Opportunity Center (ROC) - Collaborative team effort involving the Superior Court, District Attorney, Public Defender, Probation Department, and RUHS — Behavioral Health. Non-violent felony offenders choose and receive intensive substance use treatment instead of incarceration.

MOMS Perinatal Program - A 16-week, intensive day treatment program for substance using women who are pregnant and/or parenting. Transportation is provided for women and their child (children). A child care learning laboratory is provided as part of treatment, giving women hands-on parenting skills.

Substance Use Treatment and Recovery Team (START)- Substance use residential placement and intensive case management services for referrals from Inpatient Treatment Facility. Transportation is provided.

Substance Use Prevention Programs

Community Outreach - Follows guidelines of the Center for Substance Use Prevention in offering comprehensive evidence-based prevention services. Provides universal, selected, and indicated prevention interventions.

Friday Night Live (FNL) - The Substance Use Program provides a variety of prevention programs across the County, the largest of which is Friday Night Live. Programs serve high school youth (FNL), middle/intermediate

SUBSTANCE USE PROGRAMS

junior high youth (Club Live – CL), and elementary school youth (FNL Kids) with peer-based clubs to prevent alcohol, tobacco and other drug-related problems and encourage healthy living and positive youth development.

Individual Prevention Services (IPS) Program - A unique approach to working with individuals who are starting to experience the negative consequences of drug or alcohol use, but are not yet to the point of requiring treatment. The intervention is custom designed and individualized by working with the individual and their families. Services provided at all County operated Substance Use Clinics.

Outpatient program provides assistance for individual who are experiencing severe and persistent psychiatric problems. Services include urgent mental health, care assessment, medication services, brief stabilization therapy, family consultation, case management, as well as linkage to community resources, education groups, peer-to-peer support, and advocacy. Areas serviced: Moreno Valley, parts of Riverside and unincorporated areas.

Integrated Health Care Coordination was established to engage Consumers into a Wellness Recovery Plan that includes a person's Psychical Health, to provide consistent communication between all health providers (mental health, substance abuse, and primary care). The goal and purpose of Care Coordination is to ensure the services provided to our consumers is coordinated and in consideration of all health and behavioral health diagnosis and treatment, including medications.

Any consumers who has not received routine medical care is reluctant to address potential or admitted health issues (for example: STD's HIC Status, Diabetes) or is presenting with negative physical health symptoms, may be referred to Primary Care for an initial screening with the exception of consumers who are assigned and actively engaged with the Primary Providers through IEHP, Molina, or Kaiser, these consumers are not eligible for this referral program, unless there is an urgent care need. However, our goal and purpose of Care Coordination for consumers assigned to off-site providers is just as important. We will engage into a Wellness Recovery Plan by obtain a Universal Consent and our coordination of care with our Mental Health providers will continue.

Jefferson Wellness Center (JWC)

The Full Service partnership (FSP) at Jefferson Wellness Center is a program that provides a wide array of services and supports to adults living in the Western Region of Riverside County who have been diagnosed with a severe and persistent mental illness. The FSP provides intensive case management services and supports to eligible members who have been identified as struggling with homelessness and recidivism within the justice system and psychiatric facilities. The target populations are those that are currently homeless or at imminent risk of homelessness and are cycling in and out of jail or prison as well as cycling in and out of psychiatric hospitals or long term care facilities due to mental health impairments.

FSP focuses on the following strategies:

- Providing high-quality care that is member driven using a multi-disciplinary team and intensive case management approach to services and support.
- Supporting the goal areas that members may choose to work on in partnership with an assigned wellness partner.
- Providing a variety of services and supports, through group and individual methods, to assist each member in finding their path to recovery.
- Providing crisis support seven days a week, twenty-four hours a day.

Examples of multi-disciplined services to be provided include but are not limited to:

- Outreach
- Assessment
- Crisis Intervention
- Mental Health Services (individual and group services)
- Medication Support (psychiatric assessment, medication services and nursing support)
- Rehabilitation Support (supportive services, recovery based interventions such as recovery management and WRAP, care coordination/ plan development, linkage to community resources, peer support and adjunctive services, etc.)
- Collateral Services with probation, family, and other outside supports.

Riverside, CA 92507
Phone: (951) 358-4100
Fax: (951) 358-4189

Long Term Care (LTC) Placement

This program's purpose is to ensure all consumers discharged from acute Psychiatric Hospitals and are in need of residentially based treatment, receive the most appropriate care to promote hope and recovery. The program facilitates placement from hospitals to the most appropriate and least restrictive level of care for adults 18 to 59 years of age and coordinates with consumer and family, the regional clinic case manager, and the Public/Private Guardian. Other services include case management, financial benefits, research, and referral while the consumer is in a locked facility.
