Entering a KET

KET (Key Event Tracking)

- KETs are for entering specific Key events or status changes. Refer to data collection guidelines for more information on KET follow-up forms.
- The KET form has a section for each kind of status change a partner can experience. The following key areas are tracked on a KET form.
 - Residential
 - Education
 - Employment
 - Legal
 - Emergency Intervention
 - Administration
- **Data is only entered where a status change has occurred.** If only a residential Key Event has occurred than only residential needs to be completed on the form.
- You can enter data for more than one key area (residential and legal) in a single KET form.
- If there is more than one change in the same Domain (i.e., two or more residential changes), a different KET will be needed for each one.
- **Common Errors:**
 - Submitting empty KET forms
 - Entering coordinator and other admin data when there hasn't been a change
